

215.1 / Board of Trustees

Regular Review of Executive Session Minutes

The Library Board of Trustees will review the minutes of executive sessions of the Board, twice yearly, in conjunction with the June and December Board meetings.

At these times, the Board will consider whether or not it is appropriate for the minutes of these sessions – or portions of them – to be released to the public for their inspection.

These considerations will be made in executive sessions. Following this review, any material which the Board decides may now be released to the public will be released by the Library Administrator, following the usual procedure for distribution of the minutes.

Approved 01/24/1989
