Investment of Library Funds

Policy

Under this instrument, the Board of Library Trustees of the Village of Villa Park creates its Investment Policy. It is the policy of the library to invest all funds under the library's control in a manner which will provide the highest investment return using authorized instruments, while meeting the library's daily cash flow demands and in conformance with all State statutes governing the investment of public funds.

This policy shall apply to all investments entered into on or after the effective date of this instrument.

Investment Guidelines

The primary objective in the investment of library funds is to ensure the safety of principal, while managing liquidity to pay the financial obligations of the library, and providing the highest investment return using authorized instruments.

Safety

The safety of principal is the foremost objective of the investment program. Library investments shall be undertaken in a manner which seeks to ensure the preservation of capital in the portfolio. To attain this objective, diversification, as defined in this policy, is required to ensure that the library prudently manages market, interest rate and credit risk.

Liquidity

The investment portfolio shall remain sufficiently liquid to enable the library to meet all operating requirements which might be reasonably projected.

Return on Investment

The investment portfolio shall be designed to obtain the highest available return, taking into account the library's investment risk constraints and cash flow needs and the library's desire to promote fiscal responsibility. The portfolio shall seek to obtain the highest investment return using authorized investments during budgetary and economic cycles as mandated in this policy. The rate of return achieved on the library's portfolio will be measured against relevant industry benchmarks at regular intervals to determine the effectiveness of investment decisions in meeting investment goals.

Periodic Review of Investment Portfolio

The investment advisor or advisors appointed by the Board of Library Trustees pursuant to this policy shall make a periodic review, not less frequently than weekly, of the library's investment portfolio, its effectiveness in meeting the library's needs for safety, liquidity, rate of return, and diversification, and the general performance of such portfolio. The investment advisor shall report to the Library Director of the library on an "as

needed" basis, and shall report to the Board of Library Trustees at least quarterly.

Prudence

Investments shall be made with the judgment and care under the circumstances then prevailing which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable preservation of their capital as well as the probable income to be derived. This "prudent person" standard shall be used by all investment officers of the library and shall be followed in making investments for the library and in managing those investments.

Ethics and Conflicts of Interest

Authorized investment officers of the library and employees in policy-making positions shall refrain from personal business activity that could conflict, or give the appearance of a conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Such individuals shall disclose to the library any material financial interests in financial institutions which conduct business with the library, and they shall further disclose any personal financial investment positions that could be related to the performance of the investment portfolio. In addition, such individuals shall subordinate their personal investment transactions to those of the investment portfolio, particularly with regard to the time of purchases and sales.

No person acting as Treasurer or financial officer for the library, or who is employed in any similar capacity by or for the library, may do any of the following:

- have any interest, directly or indirectly, in any investments in which the library is authorized to invest.
- have any interest, directly or indirectly, in the sellers, sponsors, or managers of those investments.
- receive, in any manner, compensation of any kind from any investments in which the library is authorized to invest.

Authorized Broker/Dealers and Financial Institutions

- Authorized investment officers shall utilize the library's approved list of financial institutions when selecting institutions to provide investment services. No public deposit shall be made except as authorized by the Illinois Public Funds Investment Act (30 ILCS 235/0.01 et seq.). In addition, should the library determine to invest through the service of a broker/dealer, a list shall be maintained of approved security broker/dealers selected according to their creditworthiness, and their financial efficiency in serving the library, which shall be measured in terms of the location of the broker/dealer's corporate office, the number of full-time employees, the size of its payroll, and the extent to which the broker/dealer has an economic value to the library. The list may include "primary" dealers or regional dealers which qualify under Securities and Exchange Commission Rule 240.15c3-1 (Net Capital Requirements For Brokers Or Dealers).
- All financial institutions and broker/dealers who want to qualify to bid for

investment transactions must initially, and on a periodic basis upon request, provide to the library's authorized investment officers the following, where applicable:

 - A current audited financial statement is required to be on file for each financial institution and broker/dealer with which the library establishes a depository, trading, or safekeeping relationship. Qualified bidders shall submit annual audited financial statements and shall submit financial statements when a material change occurs in the financial condition or registration of qualified bidders.
