This section includes:

- Independent Auditors' Report
- Management's Discussion and Analysis
- Basic Financial Statements
- Required Supplementary Information
- Other Supplementary Information
- Supplemental Schedules

## **INDEPENDENT AUDITORS' REPORT**

This section includes the opinion of the Library's independent auditing firm.

## **INDEPENDENT AUDITORS' REPORT**

June 19, 2023

Members of the Board of Trustees  
Villa Park Public Library  
Villa Park, Illinois

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Villa Park Public Library (the Library), Illinois, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Villa Park Public Library, Illinois, as of December 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Library, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and pension related schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Villa Park Public Library, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

# VILLA PARK PUBLIC LIBRARY, ILLINOIS

## Management's Discussion and Analysis

December 31, 2022

---

As the management of the Villa Park Public Library (the "Library"), we offer readers of the Library's financial statements this narrative overview and analysis of the financial activities of the Library for the year ended December 31, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the Library's Financial Statements.

This discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Library's financial activity, (3) identify changes in the Library's financial position (its ability to address the next and subsequent year's challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

### USING THE FINANCIAL SECTION OF THIS ANNUAL REPORT

#### Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Library's finances, in a manner similar to a private-sector business. The focus of the *Statement of Net Position* presents information on all of the Library's assets and deferred outflows and liabilities and deferred inflows, with the difference reported as net position. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating.

The *Statement of Activities* presents information showing how the Library's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences).

#### Fund Financial Statements

Fund financial statements will be more familiar to traditional users of governmental financial statements. The focus of the presentation is on major funds rather than fund types. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund *Balance Sheet* and the governmental fund *Statement of Revenues, Expenditures, and Changes in Fund Balance* provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

## **Management's Discussion and Analysis December 31, 2022**

---

---

### **USING THE FINANCIAL SECTION OF THIS ANNUAL REPORT - Continued**

#### **Fund Financial Statements - Continued**

The Library maintains four governmental funds. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The Debt Service Fund is used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The Special Reserve Fund is used to account for the Library's capital projects not accounted for in the Bond Proceeds Fund. The Bond Proceeds Fund is used to account for the payment of costs to remodel, improve and build an addition to the existing Library building, to furnish equipment and acquire library materials such as books, periodicals, films and recordings and electronic data and storage facilities as well as any payment of incidental expenses thereto.

The Library adopts an annual budget for each of its governmental funds, as well as adopting an annual appropriation.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Library's I.M.R.F. employee pension liability and budgetary comparison schedule for the General Fund.

### **GOVERNMENT-WIDE STATEMENTS**

#### **Net Position**

The following table reflects the condensed Statement of Net Position as of December 31, 2022 and December 31, 2021:

## Management's Discussion and Analysis December 31, 2022

---

---

### FINANCIAL OVERVIEW - FUND LEVEL

#### REVENUE SOURCES

	<u>12/31/2022</u>
Local Property and Other Taxes	94.50%
Charges for Services	0.90%
Grants and Donations	3.00%
Interest	0.70%
Miscellaneous	0.90%
Total Revenue:	3,723,336

#### EXPENDITURES BY CATEGORY

	<u>12/31/2022</u>
Personnel Services	48.40%
Commodities	8.70%
Contractual Services	12.40%
Capital Outlay	3.30%
Debt Service	27.20%
Total Expenditures:	3,097,224

#### IMPACTS

##### Normal Impacts

##### Revenues

**Property Tax Rate.** The Library, based on its organization under Illinois statutes, approves an annual tax levy request which is forwarded to the Village of Villa Park Board of Trustees for final adoption. The Library's 2021 tax rate (property taxes received in the year ended December 31, 2022) was .3273 (plus .1197 for bond and interest).

The Library's tax rate is limited by tax cap legislation. This means that the Library's taxes from year to year cannot increase more than the lesser of the cost of living adjustments as identified by the State of Illinois or 5%. The tax rate is based on the Equalized Assessed Valuation (EAV) of real property within the district, value of new construction within the district, and the CPI (all urban consumers).

# VILLA PARK PUBLIC LIBRARY, ILLINOIS

## Management's Discussion and Analysis

December 31, 2022

---

### IMPACTS - Continued

#### Normal Impacts - Continued

**Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring.)** Certain recurring revenues (State per capita grant, State replacement taxes, etc.) may experience significant changes periodically while non-recurring or one-time grants are less predictable and often distort their impact on year-to-year comparisons.

**Market impacts on investment income.** The Library's investment portfolio is concentrated in local bank and money market funds similar to many other governments. Market conditions may cause investment income to fluctuate. Most funds are invested in the Illinois Funds and in local bank deposits and certificates of deposit accounts with PMA investments, which offer a competitive return, liquidity, and safety, as required by the Library's investment policy.

#### Expenses

**Introduction of new programs.** Within functional expense categories, individual programs may be added or deleted in order to meet the changing needs of the Library.

**Changes in authorized personnel.** Changes in service demand may cause the Library Board to increase or decrease staffing levels. Personnel costs are the Library's most significant operating cost.

**Salary increases (annual adjustments).** The ability to attract and retain quality personnel requires the Library to strive to have competitive salary ranges and pay practices.

**Inflation.** While overall inflation has increased slowly, some of the Library's functions and services may experience unusual commodity-specific increases.

### Current Year Impacts

#### Revenues

For the fiscal year ended December 31, 2022, revenues totaled \$3,723,336. Property taxes, the Library's largest single revenue source, amounted to \$3,299,215 representing 88.61% of total revenues. The previous tax year had an abatement of the bond debt and there was a TIF disbursement from the Village in November 2022, thus property taxes for the year increased by \$305,035, an increase of 10.19%. Personal property replacement tax receipts increased as well.

#### Expenses

The Library's expenses were \$2,835,821 for the year ended December 31, 2022. As required by GASB Statement No. 34, the expense totals include depreciation expense of \$249,308 for governmental activities.

# VILLA PARK PUBLIC LIBRARY, ILLINOIS

## Management's Discussion and Analysis December 31, 2022

### FINANCIAL ANALYSIS OF THE LIBRARY'S FUNDS

As noted earlier, the Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of December 31, 2022, the governmental funds had combined fund balances of \$5,673,534. The General Fund had a fund balance of \$3,549,896. This is an increase of \$396,395 reflecting the General Fund is structurally in balance. The Library Board also approved a transfer of \$250,000 to the Special Reserve Fund to fund future capital projects. The ending fund balance of the Special Reserve Fund was \$1,747,000. During the year ended April 30, 2018, the Village issued General Obligation Bonds Series 2017C and 2018B for a total of \$10,600,000 to be used for renovation and expansion of the Library building. The Library created a new Capital Projects Fund, the Bond Proceeds Fund, that had an ending fund balance of \$339,740. This is a reduction from the prior year of \$364,282 related to the expenditures for the Library expansion.

**Table 3**  
**General Fund Budgetary Highlights**  
**For the Fiscal Year Ended December 31, 2022**

	<b>Final Budget</b>	<b>Actual</b>
<b>Revenues</b>		
Property Taxes	\$ 2,335,880	2,452,800
Replacement Taxes	55,000	219,139
Charges for Services	22,000	32,657
Grants and Donations	35,838	112,940
Interest Income	6,000	22,673
Miscellaneous	10,000	31,696

<b>Net Change in Fund Balance</b>	—	396,395

VILLA PARK PUBLIC LIBRARY, ILLINOIS

Management's Discussion and Analysis  
December 31, 2022

---

---

FINANCIAL ANALYSIS OF THE LIBRARY'S FUNDS - Continued

The 2022 budget had one amendment during the year. General Fund revenues concluded the year over the budgeted amount by \$407,187. This was mainly due to a significant increase in replacement taxes as well as a TIF disbursement from the Village from a TIF closure. In addition, the Library received a bequest totaling \$65,174. Expenditures were under the final budgeted amount by \$239,208. This result was accomplished through close monitoring of expenditures by management.

**Capital Assets**

The following schedule reflects the Library's capital asset balances as of December 31, 2022:

**Table 4**  
**Capital Assets**  
**As of December 31, 2022**

<b>Nondepreciable Capital Assets</b>	
Land	\$ 361,490
<b>Depreciable Capital Assets</b>	
Buildings and Improvements	10,876,619
Equipment	920,835
Total Depreciable Capital Assets	<u>11,797,454</u>
<b>Less Accumulated Depreciation</b>	
Buildings and Improvements	1,137,423
Equipment	350,806
Total Accumulated Depreciation	<u>1,488,229</u>
Total Net Depreciable Capital Assets	<u>10,309,225</u>
<b>Total Net Capital Assets</b>	<u><u>10,670,715</u></u>

At year-end, the Library's net investment in capital assets (net of accumulated depreciation) for its governmental activities was \$10,670,715. See Note 3 for further information regarding capital assets.

# **VILLA PARK PUBLIC LIBRARY, ILLINOIS**

## **Management's Discussion and Analysis**

**December 31, 2022**

---

### **FINANCIAL ANALYSIS OF THE LIBRARY'S FUNDS - Continued**

#### **Long-Term Debt**

The Library was successful in passing a bond referendum on April 4, 2017. The first bond issuance occurred on August 1, 2017.

The Village issued General Obligation Bonds Series 2017C and 2018B on behalf of the Library for a total of \$10,600,000 for the costs to remodel, improve and build an addition to the existing Library building, to furnish equipment and acquire library materials such as books, periodicals, films and recordings and electronic data and storage facilities as well as any payment of incidental expenses thereto. As of December 31, 2022, the outstanding debt balance was \$8,560,000. See Note 3 for further information related to long term debt.

#### **ECONOMIC FACTORS**

Library services appear to be on the rebound after the pandemic years. Patron use of the library has increased substantially this past year. There was a steady increase of the use of the collections, study rooms, and attendance in programs. The Library Board is monitoring the costs of materials and supplies as inflation increased substantially in 2022.

#### **CONTACTING THE LIBRARY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens with a general overview of the Library's finances and to demonstrate accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Sandra Hill, Director, Villa Park Public Library, 305 S. Ardmore Ave., Villa Park, Illinois, 60181.

## **BASIC FINANCIAL STATEMENTS**

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

### Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of the Governmental Funds to the Statement of Activities - Governmental Activities For the Fiscal Year Ended December 31, 2022

---

<b>Net Change in Fund Balances</b>	<b>\$ 626,112</b>
------------------------------------	-------------------

Amounts reported in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlays	17,998
Depreciation Expense	(249,308)

The net effect of deferred outflows (inflows) of resources related to the pensions not reported in the funds.

Change in Deferred Items - IMRF	1,730,795
---------------------------------	-----------

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal on long-term debt consumes the current financial resources of the governmental funds.

Change in Compensated Absences Payable	8,050
Change in Net Pension Liability/(Asset) - IMRF	(1,738,958)
Retirement of Debt	492,083
Change in Accrued Interest Payable	743

<b>Changes in Net Position</b>	<b>887,515</b>
--------------------------------	----------------

# **VILLA PARK PUBLIC LIBRARY, ILLINOIS**

## **Notes to the Financial Statements**

**December 31, 2022**

---

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Villa Park Public Library (the Library), Illinois provides services primarily to citizens of the Village of Villa Park, Illinois, including lending or renting materials to adults and children to meet their informational, recreations, and educational needs. The government-wide financial statements are prepared in accordance with generally accepted accounting principles in the United States (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP in the United States for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Library's accounting policies established in GAAP in the United States and used by the Library are described below.

#### **REPORTING ENTITY**

In determining the financial reporting entity, the Library complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Library. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

#### **BASIS OF PRESENTATION**

##### **Government-Wide Statements**

The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's governmental funds). The Library's public library services are classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities column is: (a) presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Library's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Library first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of the Library's functions. The Library's activities are supported by taxes and intergovernmental revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The financial transactions of the Library are reported in an individual fund in the fund financial statements. The fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, reserves, fund equity, revenues and expenditures/expenses. The Library's fund is reported in the: governmental category. The emphasis in fund financial statements is on the major fund and is summarized into a single column.

The net costs are normally covered by general revenue (property taxes, replacement taxes and interest, etc.).

---

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### BASIS OF PRESENTATION - Continued

##### Fund Financial Statements

The financial transactions of the Library are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses) for the determination of major funds.

A fund is considered major if it is the primary operating fund of the Library or total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund are at least 10 percent of the corresponding total for all governmental funds combined.

The various funds are reported by generic classification within the financial statements. The following fund type is used by the Library:

##### Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Library:

*General Fund* is the general operating fund of the Library. It accounts for all revenues and expenditures of the Library which are not accounted for in other funds. The General Fund is a major fund.

*Debt Service Fund* is used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The Debt Service Fund is treated as a major fund and records all of the Library's general obligation debt activity.

*Capital projects funds* are created to account for all resources used for the acquisition of capital facilities by a governmental unit except those financed by Proprietary Funds. The Library maintains two major capital projects funds. The Special Reserve Fund is used to account for library capital projects not accounted for in the Bond Proceeds Fund. The Bond Proceeds Fund is used to account for the payment of costs to remodel, improve and build an addition to the existing Library building, to furnish equipment and acquire library materials such as books, periodicals, films and recordings and electronic data and storage facilities as well as any payment of incidental expenses thereto.

Notes to the Financial Statements

December 31, 2022

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

**Measurement Focus**

On the government-wide Statement of Net Position and the Statement of Activities, activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate.

The Library’s fund utilizes a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the “economic resources” measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

**Basis of Accounting**

In the government-wide Statement of Net Position and Statement of Activities, activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflows are incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Library recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability/deferred inflow is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

# VILLA PARK PUBLIC LIBRARY, ILLINOIS

## Notes to the Financial Statements

---

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

##### Cash and Investments

For the purpose of the Statement of Net Position, the Library's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of purchase.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the Library's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

##### Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances include property taxes.

##### Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements. Prepaids are valued at cost, which approximates market. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased.

##### Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000, or more, are reported at historical cost or estimated historical cost. Capital is estimated at historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Library as a whole. When purchased, such assets are recorded as expenditures in the governmental fund and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements	10 - 45 Years
Equipment	2 - 30 Years

Notes to the Financial Statements

December 31, 2022

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued**

**Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

**Compensated Absences**

The Library accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as “terminal leave” prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements

---

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued**

**Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position that do not meet the definition of “restricted” or “net investment in capital assets.”

**NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**BUDGETARY INFORMATION**

The Library has established the fiscal year as the twelve-month period beginning January 1.

The Library annually submits a budget, levy and appropriation to the Village of Villa Park, Illinois using the following procedures:

- Library department heads present their budgeted expenditures to the Director.
- After their requests are approved, they are integrated into a tentative budget along with the budgeted revenues.
- The Library Director submits a tentative budget for all Funds, except for the Special Reserve Fund, to the Finance Committee for their review.
- The Finance Committee submits the tentative budget to the Library Board for approval.
- Once approved, the Library Board submits the budget to the Village Board of Trustees of the Village of Villa Park, Illinois for the fiscal year.
- Public meetings are conducted to obtain taxpayer comments.

Unexpended budget amounts lapse at the end of the budget year. Spending controls for the fund is established by the amount of expenditures budgeted for the fund, but management control is exercised at budgetary line level items. All budget revisions at this level are subject to final review by the Village. Within these control levels, management may transfer appropriations without Village approval. During the fiscal year there was one budget amendment.

# VILLA PARK PUBLIC LIBRARY, ILLINOIS

## Notes to the Financial Statements

December 31, 2022

---

### NOTE 3 - DETAIL NOTES ON ALL FUNDS

#### DEPOSITS AND INVESTMENTS

The Library maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments."

Permitted Deposits and Investments - Statutes authorize the Library to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds.

Illinois Funds is an investment pool managed by the Illinois public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

*Deposits.* At year-end, the carrying amount of the Library's deposits totaled \$5,576,457 and the bank balances totaled \$5,575,712. Additionally, at year-end the Library has \$135,216 invested in the Illinois Funds.

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The investment portfolio shall be designed to obtain the highest available return, taking into account the Library's investment risk constraints and cash flow needs and the Library's desire to promote fiscal responsibility. The portfolio shall seek to obtain the highest investment return using authorized investments during budgetary and economic cycles as mandated in the investment policy. The Library's investment in the Illinois Funds has an average maturity of less than one year.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Besides investing in instruments authorized under State Statute, it is the policy of the Library to invest all funds under the Library's control in a manner which will provide the highest investment return using authorized instruments, while meeting the Library's daily cash flow demands. At year-end, the Library's investment in the Illinois Funds is rated AAAM by Standard & Poor's.

*Custodial Credit Risk.* In the case of deposits, this is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library's investment policy states deposit accounts in banks or savings and loan institutions will not exceed the amount insured by FDIC coverage unless adequately collateralized pursuant to Regulations of the Federal Reserve regarding custody and safekeeping of collateral. At year-end, the entire amount of the bank balance of deposits was covered by federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Library's investment policy does not specifically address custodial credit risk for investments. At year-end, the Library's investments in the Illinois Funds are not subject to custodial credit risk.

*Concentration of Credit Risk.* This is the risk of loss attributed to the magnitude of the Library's investment in a single issuer. The Library's investment policy states funds should be diversified appropriately to the nature and amount of the funds. At year-end, the Library does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

# VILLA PARK PUBLIC LIBRARY, ILLINOIS

## Notes to the Financial Statements

December 31, 2022

### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

#### PROPERTY TAXES

The Library submits its tax levy to the Village Board of the Village of Villa Park, Illinois for approval. Once approved, the Village submits the Library's tax levy to the DuPage County Clerk's office. The Library's property taxes are levied each calendar year on all taxable real property located within the Library District and accrued as unearned revenue in the fiscal year of levy. Property taxes due within the current fiscal year and collected within 60 days subsequent to year-end are recorded as revenue. The DuPage County Assessor is responsible for assessment of all taxable real property within DuPage County.

The DuPage County Clerk computes the annual tax for each parcel of real property and prepares tax books used by the DuPage County Collector as the basis for issuing tax bills to DuPage County taxpayers. The DuPage County Collector collects all property taxes and submits them to the County Treasurer, who remits them to the Library. Taxes must be levied by the last Tuesday in December and are payable in two installments, on March 1 and August 1 of the following year. Property taxes attach as an enforceable lien on property as of January 1 of the levy year.

#### CAPITAL ASSETS

Capital asset activity for the year was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Nondepreciable Capital Assets				
Land	\$ 361,490	—	—	361,490
Depreciable Capital Assets				
Buildings and Improvements	10,876,619	—	—	10,876,619
Equipment	902,837	17,998	—	920,835
	11,779,456	17,998	—	11,797,454
Less Accumulated Depreciation				
Buildings and Improvements	923,679	213,744	—	1,137,423
Equipment	315,242	35,564	—	350,806
	1,238,921	249,308	—	1,488,229
Total Net Depreciable Capital Assets	10,540,535	(231,310)	—	10,309,225
Total Net Capital Assets	10,902,025	(231,310)	—	10,670,715

Depreciation expense of \$249,308 was charged to the public library function.

### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

#### LONG-TERM DEBT

##### General Obligation Bonds

The Village issues general obligation bonds on behalf of the Library to provide funds for the acquisition and construction of major capital facilities. General obligations bonds are direct obligations and pledge the full faith and credit of the Village. However, the tax levy for repayment of the bonds is on the Library's tax levy and therefore the Library will make all principal and interest payments on the bonds. General obligation bonds currently outstanding are as follows:

Issue	Beginning Balances	Issuances	Retirements	Ending Balances
General Obligation Bonds of 2017C - Due in annual installments of \$115,000 to \$370,000 plus interest at 3.00% to 4.00% through December 15, 2036.	\$ 4,285,000	—	215,000	4,070,000
General Obligation Bonds of 2018B - Due in annual installments of \$205,000 to \$430,000 plus interest at 3.00% to 5.00% through December 15, 2036.	4,720,000	—	230,000	4,490,000
	9,005,000	—	445,000	8,560,000

##### Long-Term Liability Activity

Changes in long-term liabilities during the fiscal year were as follows:

Type of Debt	Beginning Balances	Additions	Deductions	Ending Balances	Amounts Due within One Year
Compensated Absences	\$ 156,780	8,050	16,100	148,730	29,746
Net Pension Liability/(Asset) - IMRF	(1,016,000)	1,738,958	—	722,958	—
General Obligation Bonds	9,005,000	—	445,000	8,560,000	465,000
Plus: Unamortized Premium	753,351	—	47,083	706,268	—
	8,899,131	1,747,008	508,183	10,137,956	494,746

The General Fund makes payments on the compensated absences and the net pension liability/(asset). The Debt Service Fund makes payments on the general obligation bonds.

2031	640,000	195,300	835,300
2032	670,000	166,350	836,350
2033	700,000	136,000	836,000
2034	735,000	104,300	839,300
2035	765,000	71,000	836,000
2036	800,000	36,300	836,300
Totals	8,560,000	3,151,400	11,711,400

#### INTERFUND TRANSFERS

Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount
Special Reserve	General	<u>250,000</u> (1)

Transfers are used to (1) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (2) move receipts restricted to debt service from the funds collecting the receipts to the Debt Service Fund as debt service payments become due.

## Notes to the Financial Statements

December 31, 2022

### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

#### FUND BALANCE CLASSIFICATIONS

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

	General	Debt Service	Capital Projects		Totals
			Special Reserve	Bond Proceeds	
Fund Balances					
Nonspendable					
Prepays	\$ 29,699	—	—	—	29,699
Restricted					
Future Capital Projects	—	—	1,747,000	—	1,747,000
Bond Proceeds	—	—	—	339,740	339,740
Debt Service	—	36,898	—	—	36,898
	—	36,898	1,747,000	339,740	2,123,638
Unassigned	3,520,197	—	—	—	3,520,197
Total Fund Balances	3,549,896	36,898	1,747,000	339,740	5,673,534

In the governmental funds financial statements, the Library considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Library first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance.* Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

*Restricted Fund Balance.* Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance.* Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

*Assigned Fund Balance.* Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Library's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

#### FUND BALANCE CLASSIFICATIONS - Continued

*Unassigned Fund Balance.* Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

*Minimum Fund Balance Policy.* The Library's policy manual states that the General Fund should maintain a minimum fund balance equal to 25% of budgeted operating expenditures.

#### NET POSITION CLASSIFICATION

Net investment in capital assets was comprised of the following as of December 31, 2022:

Governmental Activities	
Capital Assets - Net of Accumulated Depreciation	\$ 10,670,715
Plus: Unspent Bond Proceeds	339,740
Less Capital Related Debt:	
General Obligation Bonds of 2017C	(4,070,000)
General Obligation Bonds of 2018B	(4,490,000)
Unamortized Premium	<u>(706,268)</u>
Net Investment in Capital Assets	<u><u>1,744,187</u></u>

### NOTE 4 - OTHER INFORMATION

#### RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Library's employees. The Library has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. The Library currently reports all its risk management activities in the General Fund. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

Notes to the Financial Statements

December 31, 2022

---

NOTE 4 - OTHER INFORMATION - Continued

CONTINGENT LIABILITIES

**Litigation**

The Library is not a defendant in any lawsuits.

**Grants**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Library expects such amounts, if any, to be immaterial.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

**Illinois Municipal Retirement Fund (IMRF)**

The Library contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at [www.imrf.org](http://www.imrf.org). The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

**Plan Descriptions**

*Plan Administration.* All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

*Benefits Provided.* IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

### NOTE 4 - OTHER INFORMATION - Continued

#### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

##### Illinois Municipal Retirement Fund (IMRF) - Continued

##### Plan Descriptions - Continued

*Benefits Provided - Continued.* Employees hired **on or after** January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Plan Membership.* As of December 31, 2022, the measurement date, the following employees were covered by the benefit terms:

Active Plan Members

25

A detailed breakdown of IMRF membership for the Village and the Library combined is available in the Village of Villa Parks' annual comprehensive financial report.

*Contributions.* As set by statute, the Library's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended December 31, 2022, the Library's contribution was 9.60% of covered payroll.

*Net Pension Liability/(Asset).* The Library's net pension liability/(asset) was measured as of December 31, 2022. The total pension liability used to calculate the net pension liability/(asset) was determined by an actuarial valuation as of that date.

Notes to the Financial Statements

December 31, 2022

**NOTE 4 - OTHER INFORMATION - Continued**

**EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued**

**Illinois Municipal Retirement Fund (IMRF) - Continued**

**Plan Descriptions - Continued**

*Actuarial Assumptions.* The total pension liability was determined by an actuarial valuation performed, as of December 31, 2022, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.75%
Inflation	2.25%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

# VILLA PARK PUBLIC LIBRARY, ILLINOIS

## Notes to the Financial Statements

December 31, 2022

---

---

### NOTE 4 - OTHER INFORMATION - Continued

#### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

##### Illinois Municipal Retirement Fund (IMRF) - Continued

##### Plan Description - Continued

*Actuarial Assumptions - Continued.*

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	25.50%	4.90%
Domestic Equities	35.50%	6.50%
International Equities	18.00%	7.60%
Real Estate	10.50%	6.20%
Blended	9.50%	6.25% - 9.90%
Cash and Cash Equivalents	1.00%	4.00%

##### Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Library contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

##### Discount Rate Sensitivity

The following is net sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the net pension liability/(asset) of the Library calculated using the discount rate as well as what the Library's net pension liability/(asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Net Pension Liability/(Asset)	\$ 1,649,983	722,958	(13,011)

#### Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2022, the Library recognized pension expense of \$102,771. At December 31, 2022, the Library reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Totals
Difference Between Expected and Actual Experience	\$ 96,273	(1,425)	94,848
Change in Assumptions	—	(3,076)	(3,076)
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	601,360	—	601,360
Total Deferred Amounts Related to IMRF	697,633	(4,501)	693,132

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Fiscal Year	Net Deferred (Inflows) of Resources
2023	\$ 2,988
2024	137,769
2025	199,010
2026	353,365
2027	—
Thereafter	—
Total	693,132

### NOTE 4 - OTHER INFORMATION - Continued

#### OTHER POST-EMPLOYMENT BENEFITS

The Library has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Library are required to pay 100% of the current premium. Based upon a review of census data and plan provisions, as well as minimal utilization rates, it has been determined that any liability is immaterial to the financial statements in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. Additionally, the Library provides no explicit benefit. Therefore, the Library has not recorded a liability as of December 31, 2022

## **REQUIRED SUPPLEMENTARY INFORMATION**

Required supplementary information includes financial information and disclosures that are required by the GASB but are not considered a part of the basic financial statements. Such information includes:
